In re application of
Tsuneo TAKAHASHI et al.
Serial No. 09/786,442
Filed March 5, 2001

RECEPTOR PROTEIN AND METHOD FOR
THE DIAGNOSIS OF AN INFLAMMATORY
DISEASE BY USING THE SAME

SUPPLEMENTAL PRELIMINARY AMENDMENT

Commissioner for Patents

Washington, D.C. 20231

Sir:

Supplemental to the Preliminary Amendment filed
March 5, 2001 and prior to the first Official Action, please
amend the above-identified application as follows:

IN THE SPECIFICATION:

Page 13, replace first full paragraph as follows:

--Likewise, if there can be obtained substances
which individually act specifically on different types of
seven-pass transmembrane receptors (for example, the
chemokine receptors), such substances may possibly lead to
development of novel pharmaceuticals which each selectively
suppress a specific inflammatory reaction and the like.--
